Canterbury District Health Board

Electing 7 Board Members

Rochelle PHIPPS

Independent

My principal place of residence is in the Canterbury District Health Board area.

Hello, I've been a Canterbury GP since 2001 and currently work for ACC as a Medical Advisor. I have two young sons and I'm committed to our community. I first developed an interest in health governance after completing an MBA degree in 2006 and have undertaken further formal training. I've previously been on the board of the Royal New Zealand College of General Practitioners and I am currently a member of the CDHB Hospital Advisory Committee. I have a strong commitment to ensuring quality governance across the health sector. The main challenge facing the CDHB is how to best meet the increasing demands on our hospital and community health services within current funding constraints. I'm running as an independent candidate because I believe it's important to have medical practitioners represented on DHB boards and I'm passionate about providing high quality, sustainable health services with a focus on equitable outcomes.

Conflict of Interest Statement

I have the following current conflicts of interest with the Canterbury District Health Board (CDHB):-
I am a Medical Advisor for the Accident Compensation Corporation (ACC).
I am a Fellow of the Royal New Zealand College of General Practitioners.
I am a founding member of OraTaiao: New Zealand Climate & Health Council, which is an incorporated society of health professionals concerned with the impacts of climate change on health.
To the best of my knowledge and belief, I have no other conflicts of interest with the CDHB at the date of my notice of consent to being nominated as a candidate for membership of the board of the CDHB. I do not believe that any conflicts of interest are likely to arise in future, other than the continuation of the conflicts of interest stated above.
