

Canterbury District Health Board

Electing 7 Board Members

Peter WAKEMAN

STOP Trashing Our Planet

My principal place of residence is in the Canterbury District Health Board area. I am also standing for Mayor and the Fendalton Ward, Christchurch City Council.

For the sake of our children and all life on Earth, stop trashing our Planet

Stress is increased by the widening gap between wage and benefit increases and the rising costs of rates, power, insurance, rent, food and fuel. Financial stress is not good for our health and well-being. Neither are the cold, damp and mould inducing condition of our houses which tends to severely knock people's energy levels. This shows the need for a more integrated holistic approach to financial and physical health and wellbeing.

Trevor Brown All of one song

Government subsidies on medications appears like addressing the symptoms but not the disease.

Elevate natural health to a complementary equal footing with the current approach that has only very limited options. Food, water and health security issues need a much stronger voice.

Conflict of Interest Statement

To the best of my knowledge and belief, I have no conflicts of interest with the Canterbury District Health Board (CDHB) at the date of my notice of consent to being nominated as a candidate for membership of the board of the CDHB, and I do not believe that any such conflicts of interest are likely to arise in future.
